

EXPECT GERMANY TO CONFIDE HER TERMS

TEUTONIC DIPLOMATS THINK CONFIDENTIAL NOTE WILL COME SOON.

SWEDEN ADDS HER ENTREATY

Note Supporting Wilson's Request Is Handed Belligerents and Neutrals.

(Associated Press)

London, Dec. 27.—A dispatch from The Hague to the Exchange Telegraph says: "In view of a preparatory meeting of delegates to the peace conference suggested in Germany's reply to Wilson's note German agents who have arrived at The Hague are making inquiries concerning hotel accommodations for the German delegates."

COMMENT OF PRESS ON SITUATION AT VARIANCE

The promptness of Germany's reply to the United States note is characterized by evening papers as evidence of Germany's eagerness to end the war. The Standard says: "It would be a mistake to neglect the German peace maneuvers, but it would be even more fatal to waste time over them. We trust the government will give Wilson a courteous, but definite reply and will then go on with the war as energetically as possible."

The Mail, a morning paper, says Germany's reply to Wilson is a "German peace dodge."

SWEDISH NOTE BACKING WILSON GIVEN TO COUNTRIES

Berne (via Paris), Dec. 27.—The Tageblatt says Swedish diplomatic representatives have handed to the belligerents and neutrals a note supporting those of the United States and Switzerland.

WASHINGTON CONSIDERS SITUATION NOT HOPELESS

Washington, Dec. 27.—Despite the disappointment felt because Germany has not acceded to the president's suggestion to lay down her peace terms, the general view prevailed that the reply to Wilson's note was another step forward in the peace movement, because it left room for subsequent negotiations.

It is pointed out that the way has not been closed for Germany to lay down her terms as the allies demand. The next move will not be determined until the official text of the reply, which Berlin says has been handed to Gerard, has been received and considered.

Officials are inclined to the view that the door to negotiations must necessarily remain open until the entente closes it.

Official information has been received here that Sweden has addressed a peace note to the belligerents and has sent copies to the neutrals, urging a consideration of terms for

JOHN W. WEEKS

Senator Would Abolish Direct Primary System.

Although not pessimistic about the future of the Republican party, both Senator Weeks of Massachusetts and former National Chairman Charles D. Hilles made it clear at the Republican club in New York that they thought it was going to be a big job successfully to reorganize the party. The club has become the center of a sentiment for the abolition of the direct primary system and the choice of unimpaired delegates to conventions. Senator Weeks shows sympathy with this plan.

peace.

Expect Communication

In German quarters the view persisted that Germany's reply will be followed by a highly confidential communication concerning the terms upon which the central powers are willing to make peace.

Washington, Dec. 27.—Hope for peace in Europe is badly dashed—but not utterly destroyed—by Germany's flat refusal to satisfy President Wilson's demand for peace terms.

On the surface of the troubled diplomatic seas the outlook for peace was black, but administration officials strained their eyes to discern some ray of light in the situation. There were two differing views of the effect of the German note on the neutral efforts toward peace. Administration officials while refusing to discuss the possibilities, were clearly pessimistic. They took the view that Germany by insisting on her demand for an immediate meeting for belligerent states rejected the President's proposal that both groups of belligerents set forth their terms. This, the state department believes, takes the entire matter out of the President's hands at least so far as further initiative efforts are concerned. It places squarely before the entente powers Germany's insistence on an untrammelled consideration of terms in conference.

His death leaves only two remaining of his family who reached maturity, one of whom is A. C. Warner of this city, and the other George C. Warner of Topeka, Kas.

The deceased received the degree of Doctor of Divinity some years ago, and was a prominent and efficient member of the South Dakota Congregational Preachers' State association. He left surviving him his wife, one son and one daughter.

STERLING MEXICAN MYSTERIOUSLY SHOT

TWO BULLETS FIRED INTO HIS BODY FROM OUT THE DARKNESS.

Isadore Alcañite, a Sterling Mexican, was the victim of a mysterious and murderous assault at 11:30 Saturday night when he was shot twice by an unknown assailant. He was on his way to his home on Wallace street when suddenly two shots rang out in quick succession, the victim simultaneously feeling himself hit first in the left forearm and an instant later in the small of the back. The wound in his back has proven serious and he is at the Sterling hospital in a very precarious condition. The police have thus far been unable to discover any clue and Alcañite says he can conceive of no motive for the assault.

MANN REPLIES TO GARDNER

Would Rather Stand by Wilson in Peace Move Than Be Speaker.

Washington, Dec. 27.—Replying to the attack upon him by Congressman Augustus P. Gardner, Republican leader James R. Mann in a formal statement declared that he is for America "first, last and all the time," and that he would rather be on the side of those who support the President's moves for peace than win the speakership of the next congress.

Mr. Mann's statement was an answer to the charge made by Gardner that his course as minority leader of the house showed him to have sympathetic leanings toward "Prussianism." This Mr. Mann declared to be untrue.

TRAP AUTO THIEVES; PREPARE TO SEIZE 50

Believed to Have Stolen 3,000 Chicago Cars in 1916.

Chicago, Dec. 27.—Detectives who have been stalking members of the automobile thieves' syndicate are near their prey and are at work landing from twenty-five to fifty of the syndicate's operators in jail. The gang is believed to have stolen nearly 3,000 automobiles in Chicago during 1916. Among those the officers are seeking is said to be a woman who stands high in the councils of the syndicate. It is reported, too, that a number of policemen may be arrested.

"The Chicago gang," said Assistant State's Attorney M. F. Sullivan, "is only one wheel in the machine. It has connections with other thieves working in the neighboring states who assist in the disposal of cars stolen in Chicago and furnish cars to the local crew for sale here. We have information about one lot of eighty automobiles that were sent from here to Milwaukee. The road between Chicago and Indianapolis is kept hot by the travel of stolen machines passing from one branch to another of the syndicate."

"The men who commit the thefts get a handsome sum for their work, but the ones who get rich are the inside workers, who manage the sales and direct general operations. They are the ones we want."

MANN IS PREPARING REPLY

Will Explain His Endorsement of Wilson Peace Note.

Washington, Dec. 26.—While Congressman James R. Mann of Illinois, Republican leader of the house, has maintained silence concerning the attack by Congressman Gardner of Massachusetts upon his speakership candidacy, close friends of Mr. Mann believe he is preparing a reply which will explain his endorsement of President Wilson's peace note and declare a policy of unqualified "Americanism." The Mann faction is inclined to regard as of little significance the declaration that Mr. Gardner will support Congressman Lenroot of Wisconsin for speaker should the Republicans organize the next house. They declared that the statement was a personal, rather than a factional expression.

SON, 66, DIES TRYING TO SAVE FATHER, 93

Two Illinois Pioneers Perish in Flames Near Steger.

STEGER, ILL., Dec. 27.

Two old settlers of Illinois, Thomas King, ninety-three years old, and Thomas King, Jr., sixty-six years old, father and son, were burned to death at their home near Steger when the son was entrapped and fatally burned as he was making a heroic attempt to rescue his father from his bed.

In their large frame house on a small farm on the "old south trail" the two aged men were sleeping alone when the fire crept through a faulty flue leading from one of the stoves, it is believed.

Soon the dried old landmark of Steger was mantled in flames. Residents of Steger were attracted by the great red sheets of fire glowing out in unusual light in the black of night. They hastened to the scene, but were unable to get into the house. They heard only a few gasping moans and a halting scuffle of sound.

The light from the flaring tongues of fire showed the entrance of the son to his father's room. The rescue party frantically placed a ladder up to the porch, back of the roof of which they could see the old man in his bed which was already becoming a four-posted torch. They were driven back by the heat. The floor crashed down and the bodies disappeared.

They finally were able to quench the flames when the greater part of the house had been consumed.

The position of the two bodies told more plainly than words of the heroism of the son and the helplessness of the father.

Most People Are Criminally Careless In Approaching Railroad Crossings

Chicago, Dec. 27.—It would cost a half billion dollars at least to eliminate all the grade crossings of highways and railways in the state of Illinois.

All this money would come directly or indirectly out of the pockets of the people of the state.

A state law provides that a certain part of the cost, to be fixed by the Public Utilities commission, must be paid by the state, county, township or municipality, according to circumstances; this means by direct taxation of property owners.

The remainder of the half billion dollars would have to be paid by the public in freight and passenger rates—the only source of railway revenue.

This estimate of the total cost is based on the fact that there are in

Secretary Lane Tells What Produced Crisis—Carranza Lets Opportunity Slip.

El Paso, Dec. 27.—The Carranza consul here confirms the report of the occupation of Torreon by the Villa forces.

To Close Negotiations.

Washington, Dec. 27.—In the absence of any reply from Carranza ratifying or rejecting the protocol which was signed at Atlantic City, Chairman Lane of the American commission is taking steps to close negotiations.

Washington, Dec. 27.—Hope is practically abandoned in Washington that any working agreement can now be reached between the American and Mexican commissioners who for the past three months have been dickering and debating at New London, Atlantic City and Philadelphia with a view to settling finally upon a basis or diplomatic and international relationship whereby peace can be assured in both republic and the integrity of the American-Mexican border permanently preserved and safeguarded. First Chief Carranza's failure to promptly accept the protocol arranged by the American-Mexican commission is responsible for the present situation.

U. S. Patience Is Exhausted. In diplomatic language the signature of Carranza to the protocol as originally drafted has now been demanded by the United States. The patience of the administration is admittedly exhausted. The disposition of the Mexican delegates to continue negotiations over details is the principal occasion for the present "crisis" in affairs.

"We have no plans contingent upon Carranza's refusal to sign," said Mr. Lane. "If he does refuse we will take up that matter when it happens."

Lane Explains Crisis.

Just how this present so-called crisis has arisen was explained by Secretary of the Interior Franklin K. Lane when he read a report that the American government was tired of the fruitless discussion of trivialities. Secretary Lane is chairman of the American group of the joint commission. His frank statement splits the fog which for months has obscured the true state of American-Mexican relations. It is accepted in Washington as marking the end of the era of "watchful waiting" which has been claimed by high authorities to be the American policy with regard to Mexico.

Carranza Refuses to Sign.

A week ago the Mexican commissioners were informed that the substitute protocol offered by Carranza as a basis for agreement was unacceptable to the American government. The protocol which all six of the international commission had signed and which Senator Alberto J. Pani conveyed to Mexico for Mr. Carranza's review was held by the Americans to be the only basis for final agreement.

Dramatic Notes

PRINCESS THEATRE

Tonight the Princess will present Francis Nelson in "The Decoy." In all large cities there are groups of persons who live in luxury and indolence apparently without working and seemingly without care. They earn their easy money by preying upon the gullibility of rich young men seeking adventure. There are various ways of accomplishing their ends, but gambling offers the surest and most profitable means of mulcting the victim. In the Mutual Masterpiece de luxe edition "The Decoy" a five act society drama, from the pen of Herbert Hall Winslow, the well known author, the methods employed by these adventurers is vividly depicted.

OPERA HOUSE TONIGHT.

"Which One Shall I Marry?" will be the attraction at the Opera House tonight. The play is full of heart throbs, screamingly funny comedy, and a strong moral lesson runs thru it.

The play is by no means a farce, and has a serious lesson underlying it, but the characters are of the humorous lower middle Irish working class, and some of the situations into which they are led are screamingly funny. But the main subject, that of a good honest every day Irish American girl, with the difficult choice put before her of a marriage which is offered by her rich employer, and also by a poor workman of her own class, is just the subject that always rings true in the hearts of an American audience. The labor troubles of the period are touched upon, and the money making struggles which dry up the sympathies of the human heart, also develop their share of the interest.

The company is under the management of Ed W. Rowland, the prominent producer, and Lorin J. Howard, one of the cleverest of the younger stage directors. A magnificent scenic production is promised, and the company includes Miss Gertrude Ritchie as "The Girl," who has appeared in many notable productions.

CHICAGO THEATRE

The Princess Theatre in Chicago has been too small to hold the crowds that have clamored to see the latest Comstock and Gest, Inc., musical comedy production, "Go To It", so they have moved it over to the more commodious Chicago Theatre, where it will continue its sensational run that started in November. Immediately following its Chicago engagement, this city will have the pleasure of seeing this organization intact.

In "Go To It" no two costumes resemble each other. Each girl wears a model gown, especially designed for her particular style, color and personality. F. Ray Comstock, the co-producer of the new musical comedy, is also the producer of its companion piece "Very Good Eddie."

"Go To It" contains the names of many international favorites. The roster includes Cross and Josephine, Percival Knight, Gertrude Vanderbilt, Charles Udels, Tyler Brooke, Beth Franklin, Vera Houghton, Helen Bond George A. Beane, Dan Marble, Helen Frances, Gertrude Walzel, Martha Dean, Hilda Smith, Ethel Russell, Ethel Wayne, Norma Thomas, Arthur Whitman, Arthur Clarke, Charles Yorkshire, Sadie Collins, Frances Ramey, Caroline Diehl, Wilbur Stutz and many others.

GARRICK—CHICAGO

"Katinka" the sparkling and refreshing musical comedy hit is playing at the Garrick theatre, Chicago. This latest Hauerbach-Friml musical play scored an immediate hit and is doing capacity business at every performance. "Katinka" not only contains many fascinating airs but is replete with novelties. Mr. Arthur Hammerstein, the producer, has been over-generous in the staging of this production. A company of seventy which includes T. Roy Barnes, the featured member of the cast; Ada Meade, Audrey Maple, Renee North, David Ross, A. Robins, Bernard Gorcey, Minna Phillips, May Janes, Walter Maunthey, Bourke Sullivan, F. Stanton Heck, Mareyella Beaudreau, Albert Sackett and Gust Schlitz and a singing and dancing chorus of beauties completes the cast. Matinees are given on Wednesday and Saturday.

SPORTING NEWS

Indianapolis, Ind., Dec. 27.—Abandonment of clubhouses for use of visiting players may be decided upon by the American Association club owners at their meeting in February. Such a rule was suggested at the recent meeting in Indianapolis, but objections by Roger Bresnahan, of Toledo, caused a delay in its adoption.

Among the objections to the clubhouse is said to be the opportunities afforded traveling and home players for visiting too much. Maguates have expressed disappointment of what they say is lack of the old time aggressive spirit. Publicity gained by the players riding through busy streets in uniform is an advantage, in abolishing club houses, they argue. Bresnahan, however, is quoted as having said he preferred present system of allowing the players to dress in the clubhouses.

Lafayette, Ind., Dec. 27.—A still hunt for 1917 football material is being conducted by Athletic Director Oliver F. Cutts and Coach Cleo O'Donnell, of Purdue University. Part of the system of ferreting out new players is to allow each fresh man, all of whom must take military drills, to escape one hour's drill each week by substituting that much gymnasium work. In the gymnasium the coaches plan to put a line on the men. As part of the general program of athletics it has been announced that every fresh man will be taught to swim before he enters the senior year.

Indianapolis, Ind., Dec. 27.—Emil (Hap) Huhn, of this city, a member of the Cincinnati National League club, is at a local hospital recovering from an operation in one of his ears. The trouble bothered him in his playing last season.

Chicago: President B. B. Johnson of the American league, is opposed to making any reduction in the number of 25 cent seats in American league parks. The National league, at its recent New York meeting, voted to cut down the number of bleacher seats in certain cities.

"We will cut down expenses before even considering an advance in prices or limiting the number of the cheap seats," said President Johnson.

"Stop! Look Both Ways! Listen!"

The latest report of the State Public Utilities Commission shows 93 persons lost their lives and 241 were seriously injured in accidents at highway crossings of Illinois railroads, in 1915. The Commission says:

"The transition from team to automobile traffic in the last few years has been remarkable.*** Automobile drivers will not approach a railroad crossing in the same careful manner as will the driver of a team."

Why Do Accidents Occur at Highway Crossings?

It is not the mere existence of grade crossings that makes them dangerous. It is the way people use them. Human nature is the same in all the states. Here is what the California Railway Commission reports on actual observations of 17,000 motor vehicle drivers at railway crossings:

69.5 per cent looked neither way before crossing the tracks.

2.7 per cent looked in only one direction.

27.8 per cent looked both ways.

This is what the Commission learned as to 4,900 drivers of teams and 6,300 pedestrians, at railway crossings:

	Team Drivers	Pedestrians
Looked neither way	39.4%	49.1%
Looked one way only	8.6%	15.0%
Looked both ways	52.0%	35.9%
	100.0%	100.0%

Some Facts About Grade Crossings

To eliminate the 17,100 grade crossings in Illinois would cost an average of at least \$30,000 a crossing, or a total exceeding \$500,000,000—a half-billion dollars!

Under the laws of Illinois, part of this enormous sum would have to be paid in direct taxation, by the public.

The remainder would have to be paid by the public in freight and passenger rates. For a railroad is not a mint—it does not coin money. Every penny it pays out must first be paid by the public.

The railroads already have expended over \$100,000,000 for track elevation in this State, but, because of the great cost of this work, it is plain that thousands of grade crossings must remain for years to come.

Public Co-Operation Is Necessary

The railroads are doing their part to prevent accidents at highway crossings. They have spent and will spend immense sums for track elevation, watchmen, crossing gates, alarms and in "safety first" campaigns of education.

But accidents of that kind will continue to occur unless the public, too, does its share toward preventing them.

Why should anyone risk life and limb of self and others, rather than take the time at every railroad crossing, to Stop, Look Both Ways and Listen?

Restores Old Painting

On the walls of the Dixon hospital hangs a picture of Mrs. Bethea which commands the attention and admiration of all who see it. Little would one guess that a few months ago the picture was about to be thrown into the discard, so blackened and discolored it was, when someone suggested that it be referred to Miss Blanche Ripley, art teacher in the North Dixon schools. The painting was a work in oil. Miss Ripley took it, and retouched it so cleverly that it is restored to its pristine beauty.

Chronic Catarrh is Curable

Nothing is more distressing to the sufferer and his friends. Chronic catarrh is systemic—that is, it is present throughout the body, though it may manifest itself in a local ulceration. Only a constitutional treatment will overcome systemic catarrh. Local treatments sometimes help the acute manifestations, but they cannot overcome the systemic disorder.

PERUNA Has Helped Thousands

It is a foe to catarrh. The voluntary testimony of thousands establishes that Peruna benefits in a number of ways. Peruna builds up the digestion, restores the strength, and helps put the system in condition.

Peruna has special value in catarrh. It gives vitality to the system, restores tone to the membranes and enables those to perform their functions. In many cases its benefits begin at once, and it rarely fails when treatment is continued properly. The Peruna Medical Department will be glad to assist you to overcome this disease. The doctor's advice is free. Don't delay treatment.

INDUSTRIAL DANGER.

P. C. Williams, our commercial attache at London, has returned fully convinced that the protective tariff will be revived by Great Britain at the close of the war. He says: "Public opinion in England has almost entirely crystallized as to a protective tariff being necessary after the war," and he sees as a result of the adoption by Great Britain of this policy the opening by many American industrial concerns of branch factories in Great Britain.

Mr. Williams has excellent reason for his prophecy. The British Board of Trade has for a year and a half been spreading the protective tariff propaganda with the same vigor which in 1846, and the years following, characterized the activities of the Cobden free traders. In those days England had no equal as a manufacturing nation at low production cost and her aim was to establish for herself free markets throughout the world. But the industrial development of Germany under the tariff policy inaugurated by Bismarck in 1879 has given Great Britain cause to ponder and today even the British labor unions appreciate the value of a tariff policy which will protect them from the still lower wage scale of Germany. This was testified to about two months ago when a vote on the subject, held by the unions, received an overwhelming majority in favor of a return to protection.

With Great Britain operating under a protective tariff policy the circle in Europe will be complete. The close of the war will find all the European countries operating under what may be termed specialized protection, that is, by the application of such import restrictions as will best conserve to each its principal industries—steel manufactures, tin, leather goods, and textiles in Great Britain, for example; similar commodities and chemicals in Germany; silks, wines, laces, etc., in France; in Belgium and Austria-Hungary, glassware, toys, etc.

The general adoption of such a policy in Europe can not but be detrimental to a non-protective industrial America. There are, perhaps, no basic industries to be found anywhere in Europe that are to be found here. Our industrial field is all-embracing, and while along certain lines we may not yet have reached the high degree of efficiency which has been attained by some European competitor in a particular industry, we have been improving our efficiency under the protective policy. The argument presented by some that protection has retarded our efficiency is not true in a general sense. The tendency of our people is to buy the best goods, wherever procurable, and American manufacturers have striven, and are striving, to supply them. But if our manufacturers are to be held to the scale of wages now paid our laborers their efficiency must certainly be destroyed by reason of the influx of European products into this country at rates of duty designed solely for the purpose of raising revenue, the labor cost of these products being from one-half to one-third the cost of similar commodities fabricated here. That is axiomatic.

The prospect is a challenge to all. Even President Wilson shows signs of receding from the life-long stand for free trade, as was evidenced by his address at Cincinnati. At the convention of the Agricultural College Presidents in Washington recently, the importance to the American farmer of a protective tariff which would preserve the wage and the number of our laboring class, the farmer's best customers, was eloquently presented. We must return to the policy of protection, whatever the party in power. It is that or industrial dissolution.

LIKE LOWDEN'S PROGRAM.

The Chicago Tribune and the Chicago Herald both publish editorials commending Governor-elect Lowden for the program he announces. The Herald says:

Governor-elect Frank O. Lowden's announced plan to cut down by 50 to 70 per cent the executive departments ought to be an augury of real success for his administration.

Already he has succeeded in clarifying his great issue. He goes into office pledged to consolidate the 105 overlapping, wasteful and essentially inefficient state departments, bureaus and commissions into a reasonable number of departments. His last declaration in favor of reducing the number of officeholders shows with what sincerity he is approaching his great task. It also ought to indicate his freedom from machine ideas. For in such circles the suggestion that jobs be made fewer is highest treason.

The obvious advantage to the state of Colonel Lowden's policy is great. Prof. John A. Fairlie of the University of Illinois estimated in his report to the efficiency and economy committee that at least \$1,000,000 annually may be saved by a reasonable consolidation of offices. Prof. Fairlie expressed the mind follow—with two or three changes—the recommendations of the efficient methods in the reorganized state government.

The general departments which the new governor has tentatively in mind to follow—with two or three changes—the recommendations of the efficiency and economy committee. In each case ten departments will concentrate the activities of more than 100 separate branches of administration. The governor will be given a large measure of control over all the departments. Responsibility, so far as possible under the constitution, will belong to the chief executive.

The actual enactment of these fundamental changes will be difficult. Col. Lowden is therefore entitled to generous support. His wish to reduce the appointments allotted to him witnesses the genuineness of his interest. The energy he has shown in drafting a bill embodying the consolidation promised indicates executive talent. The time is ripe for progress in Illinois. The friends of economy and efficiency should give the needed assistance to the coming administration.

BE A GOOD FELLOW ALL YEAR.

Just because Christmas is over you need not feel that you have to quit being a Good Fellow. The Good Fellow season is never closed so long as there is a member of the community in want and deserving of assistance.

For poor folks, the hardest part of the winter is yet to come. Clothing that the Good Fellows provided for the poor will, in many cases, be adequate, but the food and the coal will be consumed rapidly. Many of the families that were helped will be in need again immediately, and if you know of such a family in town, why not take it upon yourself to visit that home once in a while and see how they are getting along? You can help a great deal without much expense, and you can make yourself bigger and better and get more enjoyment out of life if you hold out a helping hand to your less fortunate brothers and sisters.

OBITUARY

WALTER DUNN.

An Elgin, Minn., paper has the following concerning the death of Walter Dunn, formerly of this vicinity:

Again it becomes our sad duty to chronicle the death of one of the prominent citizens of this community. It came as a shock to the people of this village and the surrounding country when the news of the sudden passing of Walter Dunn on Monday, Dec. 18, 1916, became known. Death was the result of pneumonia, which had confined him to the house for only a few days. He had attended the Stock show at Chicago last week and came from there with a bad cold, but did not consider it serious until a day or two later when he was compelled to take to his bed, and he grew worse until the end came.

Mr. Dunn had been identified with affairs of this community for more than 40 years, his integrity and sterling qualities winning him a high place among his friends and associates. He was always interested in any progressive movement in the community and could be found among the leaders of such movements. For many years he was a breeder of blooded stock, his efforts along this line being of great benefit to the farmers of this section. Mr. Dunn was a charter member of the Woodman lodge of Viola and for a number of years was Consul of the order, its highest office. He had also been an active member of the local Masonic order for a number of years. Mr. Dunn has always been prominent in township affairs, having held the office of town supervisor for several years and has been an active member of the local creamery association. In the home Mr. Dunn was a loving husband and father, who took great pleasure in home life. The death of Mrs. Dunn a little over two years ago, on Oct. 11th, was a great blow to him, from which he never fully recovered.

Walter Dunn was born in great Valley township, Cattaraugus Co., N. Y., Nov. 27, 1846, where he lived until nine years of age, when he moved with his parents to Dixon, Ill. Ten years later, when he was 19 years old, he came with his parents to Minnesota, making the trip by team from Dixon to Waseca, Minn. Three years later Mr. Dunn came to Elgin to live and Dec. 2, 1874, he was united in marriage to Miss Helen Seeley. Mr. and Mrs. Dunn began housekeeping in Mrs. Seeley's house at Seeley's Corners, two miles east of Elgin. In 1876 they moved to the Gould farm south of the Corners, now known as the Dunn farm and which has been their home ever since.

Five daughters and a son survive: They are Mrs. J. D. Siem and Mrs. Clyde Richardson, Elgin; Mrs. C. W. Woodruff, Chatfield; Mrs. Henry Schroeder, Viola; Mrs. Carl Houghton and George Dunn of Elgin.

The death of both mother and father coming within so short a time thus breaking up the home completely, is indeed sad and the sympathy of the whole community goes out to the bereaved family in their grief at the great loss.

The funeral services were held at the M. E. church in this village Wednesday at 2:30 p. m., Rev. H. Hugh Gower of Slayton and Rev. H. E. Davis of Elgin officiating, and the remains were laid to rest in the Elgin cemetery. The members of the Masonic fraternity conducted the funeral from the church.

NO PRAYER SERVICE

There will be no prayer meeting at the First Presbyterian church this evening because of the slippery sidewalks.

Mandolin Club Masquerade.

The Dixon Mandolin club will give a masquerade ball at the Armory on Friday evening. There will be two cash prizes given to the best dancers. Remember the night and come, as there will be good music furnished by the five-piece orchestra.

Returned From Visit

Mrs. W. H. Edwards has returned from a three weeks' visit with relatives and friends in Leland and Pawpaw, Ill.

Entertained.

Miss Ethel Woodyatt entertained six young people with a theatre party followed by music, games and refreshments at her home last evening. The evening was a very pleasant one.

Wedding Anniversary Dinner

Mr. and Mrs. Ward Hall entertained relatives at dinner Sunday in honor of their 14th wedding anniversary. Christmas decorations made festive the house while bride's roses were used upon the table. Among the guests were W. E. Hall, Miss Dorothy Hall, and Gerald Hall of this city.

CARELESS IN APPROACHING CROSSINGS

(Continued from page 1)

highway crossings in this state, compared with only 14 passengers.

The automobile is largely responsible for these accidents, because, as the Public Utilities commission has said "automobile drivers will not approach a crossing in the same careful manner as the driver of a team."

Actual tests recently made by the California Railroad Commission have showed that of 17,100 drivers of motor vehicles, 12,000 did not look either way before crossing the railway tracks, while over 3,000 crossed at reckless speed.

The Illinois Railroad committee issues a novel argument why automobiles, horse-driven vehicles and pedestrians must "Stop, Look Both Ways and Listen" at crossings to insure safety. A train running 60 miles an hour goes 88 feet in one second and cannot be stopped in less than a quarter of a mile. On the other hand an automobile going the legal limit of 25 miles an hour can be stopped very quickly and a pedestrian can stop almost instantly.

According to all investigators, the grade crossing accidents can be almost entirely eliminated if everybody will only "Stop, Look Both Ways and Listen" before crossing the railway tracks.

A WORD WITH WOMEN

Valuable Advice for Dixon Readers.

Many a woman endures with noble patience the daily misery of backache, pains about the hips, true, nervous spells, dizziness and urinary disorders, hopeless of relief because she doesn't know what is the matter.

It is not true that every pain in the back or hips is trouble "peculiar to the sex." Often when the kidneys get congested and inflamed, such aches and pains follow.

You can tell it is kidney trouble if the secretions are dark colored, contain sediment the passages are too frequent or scanty. Then help the weakened kidneys. Don't expect them to get well alone.

Doan's Kidney Pills have won the raise of thousands of women. They are endorsed at home—Read this Dixon woman's convincing statement:

Mrs. C. Charlton, 516 Lincoln Ave., Dixon, says: "I suffered for a long time from pains across my back and sides. The trouble was particularly severe at night and early in the morning. When I bent over to lift anything, I was hardly able to straighten up again. My kidneys were inactive, too. Doan's Kidney Pills, procured from Leake Bros. Co.'s Drug Store, weren't long in giving me relief." (Statement given May 21, 1912.)

On January 21, 1915, Mrs. Charlton said: "I use Doan's Kidney Pills whenever my back gets lame or sore and they always help me."

Price 50c, at all dealers. Don't simply ask for a remedy—get Doan's Kidney Pills—the same that Mrs. Charlton has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.
